

# Introduction to Beekeeping

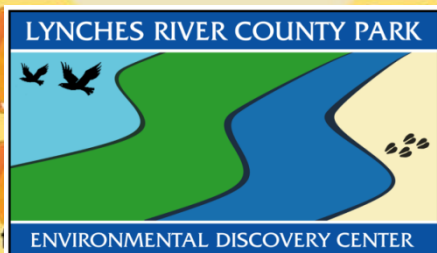

Getting stung by a bee can hurt, but losing honeybees forever can hurt even more! It may be hard to see why honeybees are so important to us, but did you know that one out of every three bites of food we take comes from a pollinated plant or animal that depends on bee pollination?

Join Bekki Medsker, Certified Beekeeper, at the Environmental Discovery Center at Lynch's River County Park on **Saturday, July 5 from 1:00 PM to 3:00 PM**, to learn the basics of beekeeping and how you can get started with your own bees!

This program is free of charge, but registration is required. Call the EDC at (843) 389-0550 to reserve your spot!

Ever wonder how many flowers a honey bee has to visit to produce one pound of honey? Join us to learn the answers to these and many other questions!

Environmental Discovery Center at  
Lynch's River County Park  
5094 County Park Road  
Coward, SC 29530
