# Addendum 2

## Questions and Answers for Bid #9-11/12 – “Turf Maintenance - Florence County Facilities” Recreation Department

**Question 1-** Is there a current contract on this project and if there is what is the current contract price.

**Answer** - The current contract price is \$120,792; however, it includes fertilization, herbicide application, and aeration which is not included in this invitation to bid. We expect the budget for this scope of work to be \$100,000.

**Question 2-** Does the statement below mean jobs you have been or have maintain on a weekly basis in the past two years.

Proven ability to maintain a comparable number of acres on a weekly basis. Vendors shall include name and contact information of past or current customer(s) who can individually or collectively account for the comparable acreage required in the past two (2) years (associated acreage must be included with each customer submitted).

**Answer** - If I understand his question correctly, yes, names and contact information for jobs of comparable acreage for the past 2 years.

**Question 3-** Could you give me a ball park figure of acreage of turf either collectively or individually. The acreage for the facilities are found on page one (1) (parks names and addresses.

**Answer** - As stated in the bid, site visits are strongly encouraged as each park has areas within that total acreage that would not be maintained as part of this bid (buildings, parking lots, etc.).

**Question 4-** Do you have restrictions on how far the contractor has to travel to get to the sites.

**Answer** - No, but local vendors will have a 2% bid preference.

**Question 5-** Do you have a Award criteria.

**Answer** - Assuming all criteria are met, the bid will be awarded to the low bidder.

**Question 6** - Under the new bid - # 9-11/12, it does not divide the areas by “Northern Areas” or “Southern Areas”; nor does request a separate bid for “Core Aeration.” Is it to be assumed that Core Aeration (which is typically done twice a year) is to be included in the total for the contract?

**Answer** - It should not be assumed and should not be reflected in a bid submission
